

# OPTEVA 328 BULK CASH RECYCLING ATM

The most versatile cash  
deposit and recycling  
machine in the industry

- Allows a customer to make an envelope-free cash deposit or withdrawal of up to 200 notes at one time
- Increases customer acceptance by validating, denominating, and counting deposited currency, emulating a teller transaction
- Reduces time spent processing routine transactions, allowing more time to focus on relationship building and cross-selling activities
- Configures to deposit bulk cash, a combination of deposit and dispense, or full recycling of deposited currency
- Currency recycling option reduces the number of trips to the ATM and the amount of currency needed to refill the machine

**DIEBOLD®**

**Benefits of all Opteva Line Exclusives** — including

- 15 inch LCD consumer display with or without function keys
- 80mm, 101mm, or 112mm thermal receipt printers with receipt retract, two color and graphics printing capability
